“I’ll take an exam
table over a hospital
bed any day.”

WWW.LIFEDEPENDSONIT.COM

I don't like going to doctors any more than most guys. But diseases like high blood pressure and colon cancer are nothing to fool around with.

So, I go every year for my screenings.

And then I can rest easy...

in my own bed.

Regular check-ups are key to maintaining good health and catching early any problems that could crop up. See your doctor at least once a year.

Visit www.lifedependsonit.com for more information.
